## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 13-26 are allowed. The following is an examiner's statement of reasons for allowance: The applicant's invention regarding a discoid recording medium having a linear velocity(CLV) = 1.2 m/sec, and track pitch = 1.5  $\mu\text{m}$  is not found in prior art. And further the maximum regeneration time = 74.7 min as discussed in Claim 26, where maximum regeneration time is a function of linear velocity and track pitch as discussed in specification is found to be allowable over prior art. And thus the applicant is granted an patent on those merits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
